# MAPP workshop materials

Thank you for attending the MAPP workshop at MIT. Here are some materials from the workshop for your reference:

- A tarball containing a version of MAPP; this includes all the features of MAPP that you explored in the workshop
- A tarball containing a bunch of scripts that you used during the workshop
- Instructions on how to get MAPP up and running once you download the tarballs above
- Instructions for obtaining a 30-day trial version of MATLAB (only if you don't have MATLAB installed on your machine)
- Video recordings from the workshop: we have screengrabs of everything that was shown on Tianshi's laptop during the workshop. Here is the video of the first session (before lunch), and here is the video of the second session (after lunch).
- The cheatsheet that we distributed during the workshop
- The scribbles that Tianshi made on his tablet during the workshop
- And finally, the slides that Tianshi showed during the workshop.
